PUBLICATIONS IN THE YEAR 2011

(in the order of their publication date, starting with the most recent one)

I. CAIETE ICOMOS SERIES NO. 2 – CO.RE. Patrimoniu Construit (CO.RE. Built Heritage)

The volume, published in partnership with the ICOMOS (International Council on Monuments and Sites) Romanian National Committee, comprises four articles on built heritage protection and conservation. In this new issue we have published the text of Sergiu NISTOR, which presents the terminology and methodology of heritage protection through the revision of international documents, the article of Kázmér KOVÁCS on restoration, as well as that of Dan MOHANU entitled *The Image Reintegration*, respectively the terminology of interventions on historic load-bearing structures, presented by Bálint SZABÓ. The publication was financed by the Romanian Administration of Cultural National Fund.

III. TRANSYLVANIA NOSTRA JOURNAL (YEAR V / Issue 19)

Issue 3/2011 of the journal continues the previous issue's topic of *Fortresses Once Again in Use* with a new selection of lectures sent by the conference participants. The first article presents the 19th century fortification system of "București Fortress", followed by a paper on the conservation history of Hunedoara Castle and by a study presenting the relationship between the evolution and the regeneration perspectives of the Arad Fortress' historical area. Besides the mentioned articles, the third issue also contains a collection of papers presenting the research and conservation plan of the Károlyi Castle in Ardud. The last article describes the conservation and manner of presentation of Roman ruins in Hungary in the last few decades.

VIII. TRANSYLVANIA NOSTRA JOURNAL (YEAR V / Issue 17)

The first issue from 2011 is dedicated to general problems related to built heritage, presenting, with the aid of richly illustrated sequences, the conservation process of the bronze statues of the Matthias I Sculptural Group, which ended in 2010, and the structural renovation of its pediment. Here are debated the decorative techniques and the typology of the sounding boards, the conservation of the fortified church in Drăușeni, the rehabilitation of historic doors and windows of the Márton Áron College in Miercurea Ciuc, and also the Transylvanian historic roof structures database. It includes also the statistic analysis of the structure of National Conservation Plan (2007-2010) that outlines the distribution at a national level of the funding assigned to rehabilitation works.

IX. ILLUSTRATED DICTIONARY OF HISTORIC ROOF STRUCTURES

The publication represents a new volume of the dictionary series on historic load-bearing structures. This time, the concepts that refer to historic load-bearing structures and those regarding interventions on them are rendered simultaneously, unfortunately only for the subunit of historic roof structures. By succeeding partially in supplying the completions that were promised in the preceding volumes, a small step was yet again taken towards achieving the final quality. The dictionary constitutes teaching material that comes to complete the authors' lectures given during the courses: conservation of constructions at the Faculty of Architecture and Urban Planning of the Technical University of Cluj-Napoca and Postgraduate Studies on Historic Building Conservation, organised by the Babeș-Bolyai University from Cluj-Napoca. The publication was issued in cooperation with the Transylvanian Nostra Foundation and with the financial support of the Hungarian National Cultural Fund.
